

ZEDKR FINANCE

Shop. Cash out. Earn.

A Robinhood Chain-native utility ecosystem

On-chain value still stops at the edge of daily life.

Holders can own assets, but using them often means leaving the chain, navigating multiple services, and losing the simplicity of the original wallet experience.

\$ZED

Zedkr Finance connects that value to two everyday outcomes:

BUY WHAT YOU NEED

MOVE INTO CASH

Three parts. One participation loop.

01

ZEDKR SHOP

Buy from Amazon and eBay with supported Robinhood Chain assets.

02

ZEDKR CASH

Convert supported assets into fiat through familiar payment apps.

03

\$ZED REWARDS

Earn \$ZED cashback and qualify for tokenized-stock airdrops.

USE → EARN → HOLD → RECEIVE

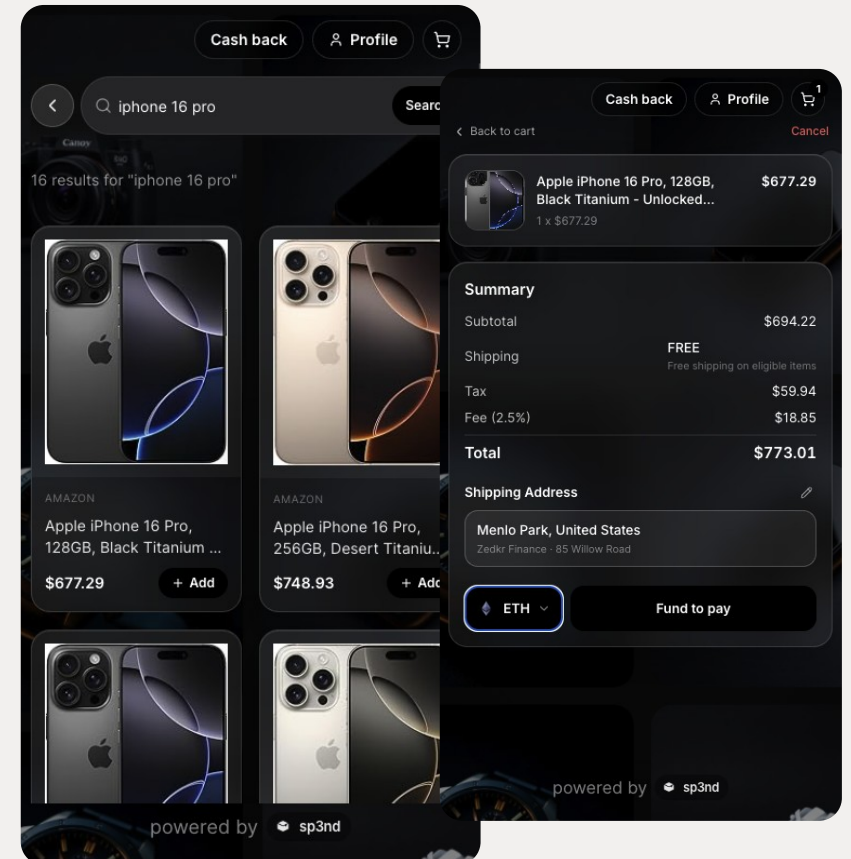

Amazon and eBay purchases, paid with on-chain assets.

Search inside Zedkr or paste a product link. SP3ND sources and fulfills the order while Zedkr delivers the Robinhood Chain payment and \$ZED reward experience.

2.5%

disclosed Shop fee

Cashback paid in \$ZED

A familiar checkout with crypto underneath.

01 Find it

Search a product or paste an Amazon/eBay link.

02 Connect

Sign in and use the embedded Para wallet.

03 Checkout

Confirm address, taxes, fees, and payment asset.

04 Fulfill

SP3ND sources the product and handles delivery and refunds.

05 Earn

Cashback is credited in \$ZED.

Crypto out. Cash in.

Convert supported Robinhood Chain assets into fiat and receive the payout through apps you already use.

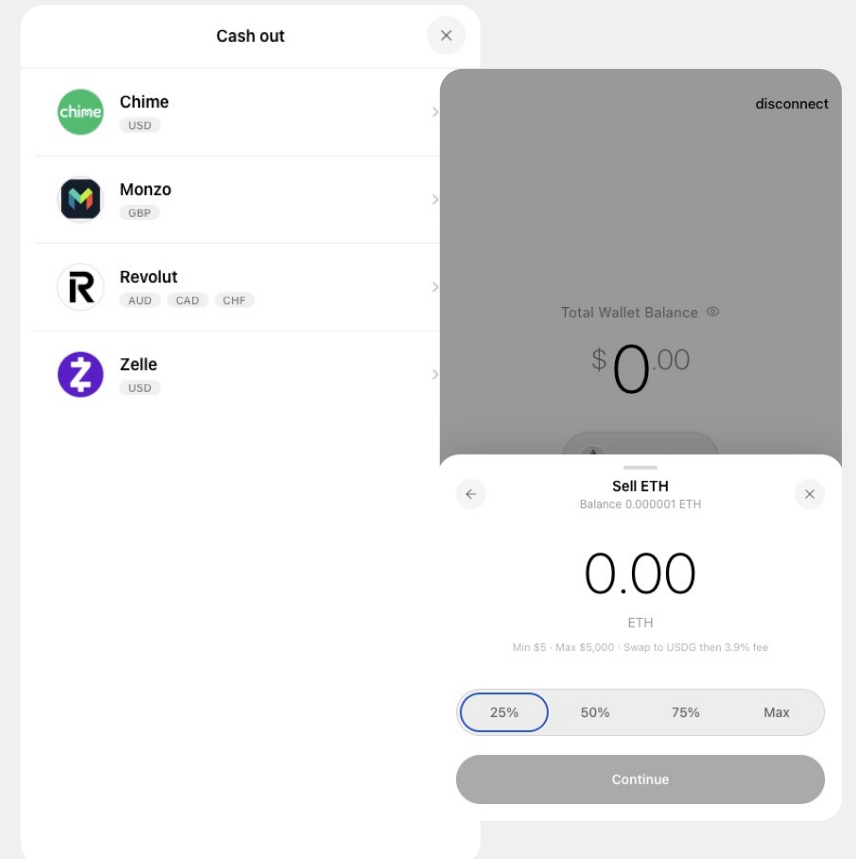

24 hrs

advertised average settlement time

3.9%

disclosed Cash fee

Cashback paid in \$ZED

Private verification connects on-chain escrow to direct fiat payment.

01 Choose

Select ETH, USDG, or CASHCAT and a payout destination.

02 Escrow

Peer secures crypto in a non-custodial smart contract.

03 Pay

A matched counterparty sends fiat to the selected app.

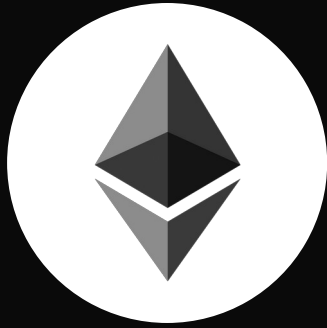

04 Verify

Peer verifies amount, recipient, and timestamp privately.

05 Complete

Escrow releases and Zedkr credits \$ZED cashback.

Focused today. Expandable by design.

ETH

Ethereum

USDG

Stable-value asset

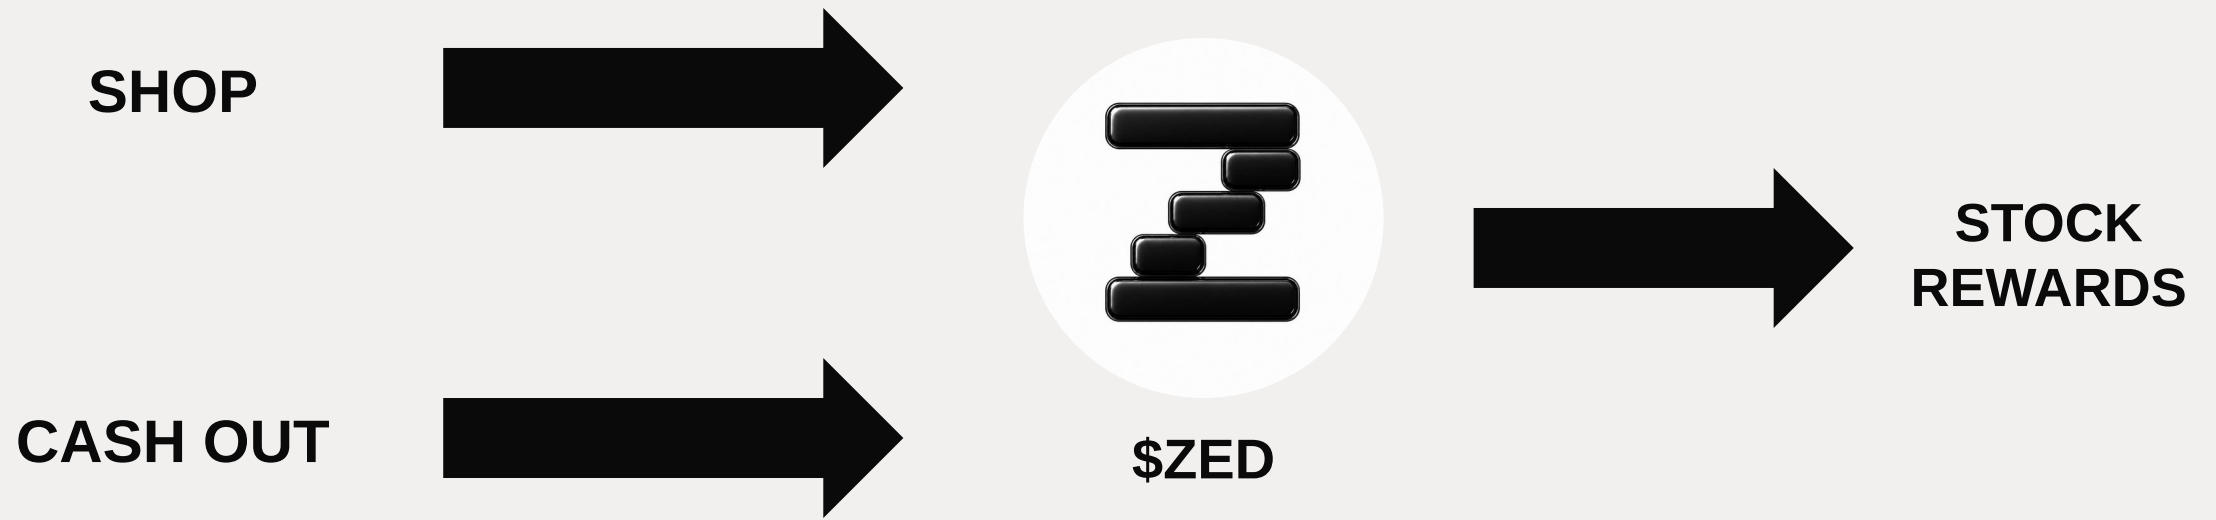

CASHCAT

Robinhood Chain community
asset

Future support will extend to more Robinhood Chain assets.

Product use becomes ownership in the reward layer.

5% of collected 3.5% protocol-fee allocation supports \$ZED cashback.

Two funding streams become 18 tokenized stocks.

18 Robinhood Chain tokenized stocks are distributed directly to eligible wallets.

Automatic rewards, with clear eligibility.

10K

minimum \$ZED

30 MIN

distribution cycle

\$40

execution threshold

18

stocks per cycle

Gas paid by Zedkr

**Developer wallets
excluded**

**No staking or claim
required**

If the threshold is not reached, the next eligible cycle waits for sufficient accumulated fees.

18 companies across technology and emerging industries.

NVDA

AAPL

MSFT

AMZN

GOOGL

SPCX

TSLA

ORCL

COIN

PLTR

CRWV

INTC

AMD

MU

SNDK

META

USAR

BE

Established leaders and higher-growth names create exposure across AI, semiconductors, cloud, digital finance, energy, space, and strategic industries.

A 1B supply with a disclosed 100M developer allocation.

1B

total \$ZED supply

900M

held by holders or available on the open market

100M DEVELOPER ALLOCATION

35M	Marketing + partnerships
30M	Community rewards
20M	Team + contributors
10M	Treasury reserve
5M	Bond-triggered burn

70M locked or vesting • 25M available • 5M reserved for burn

Zedkr coordinates the experience; each partner executes a specialized role.

ROBINHOOD CHAIN

Native network for Zedkr assets and tokenized stocks

SP3ND

Merchant of record, product sourcing, fulfillment, and refunds

PEER

P2P liquidity, non-custodial escrow, and private payment verification

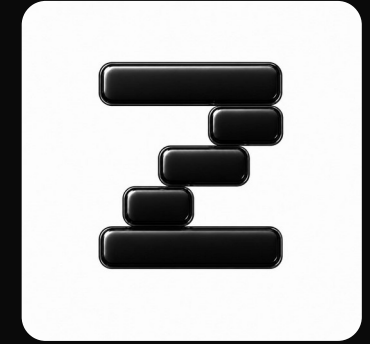

PARA

Embedded wallet and authentication experience

UNISWAP

Automated purchases for the tokenized-stock reward basket

ZEDKR FINANCE

Spend. Cash out. Earn. Hold. Repeat.

Commerce and cash utility for Robinhood Chain, connected by \$ZED rewards.
